## **Reiki Masters - Traditional Usui Method**

By the very fact that you enquiring about the Reiki Masters, it is evident that you are preparing yourself for this very special journey along your path. A journey of responsibility, self-realisation, compassion, learning to speak your truth, a path of self - empowerment connecting you to the Divine Essence within yourself, and all Sentient Beings.

Once you are initiated into Reiki 1, you begin to open like a flower, each petal uncurling itself and reaching for the light. And as you open yourself to the light, you will find the healing process increased with the clearing of negative thought patterns, belief systems, etc.

Reiki 11 shows a further commitment to your chosen path bringing a deeper love for all beings, helping us to feel that connectedness, not only with the Source, but with our fellow beings.

By the time you are thinking of Reiki Masters, it is important to recognise just how far you have come along your journey, but also to make sure that you are ready for the next step! If there is still a lot of work to be done upon the self, if your life seems to be completely upside down, if the money is definitely not available, then perhaps this is not the right time for you.

After reading this far, it's a good idea to sit quietly in meditation and seek an answer. Always begin by connecting with your guides, for example;

I call upon my Reiki Guides, (Ascended Masters, Guardian Angel, etc.) and ask that you be with me today during my meditation. Please let it be shown to me whether or not this is the right time, and the right person, for me to take my Reiki Masters.

Sometimes, the answers come straight away and other times you will be shown or directed within the next few days, remain open to your feelings and listen to your intuition, not your ego!

At this point I would like to ask you to write to me, telling me why you would like to take Reiki Masters, the answers you receive in your meditation, if you have any major problems in your life at present, and how you think Reiki Masters would help you!

I wish you prosperity, love and light along your path!
